

OAKGROVE CENTRAL

Oakgrove Central is a freelance layout constructed in 2mm/ft scale and built with KATO UNITRACK and KATO UNITRAM. The layout is continuous and features four running lines, a four platform station plus two running tram tracks. An airport diorama has been constructed on a separate board; this consists of mainly military aircraft and helicopters with working rotor blades.

The layout measures 15ft x 3ft 3 inches and won the Best Visiting Layout at The Milton Keynes Exhibition in Feb 16.
